Huff and Puff
Like the Big Bad Wolf

Roll the bottom half of this paper into a tube and secure it with a spot of tape or a rubber band. It is better to make a tube large enough to fit your lips rather than inside your mouth.

Now it’s time to have some fun - let’s set up a race! Make a start and finish line on a flat surface. (Books work great for this!) Using the pom pom as the race piece, get down on the floor and blow through the tube to push the pom-pom toward the finish line. See who wins! Looking for a challenge? Gather some more items such as books, tin cans, coffee mugs, and set up an obstacle course to run your pom-poms through.

Cut on this line and use bottom part of this paper to make your tube. If you’d like to decorate it do that before you roll it up. Each person should have their own tube.
